

The Voter Registration Project is a non-partisan group of volunteers solely focused on registering new voters and helping them obtain an ID needed to vote in Kansas and Missouri.

VRP registers voters using the federal registration form, the same form available in DMV offices. **It takes two minutes to complete!**

By filling out this form, people can:

- Register to vote for the first time
- Check their voter status
- Update a name change
- Update an address change
- Change party affiliation ahead of the August primaries

Kansas residents can also register online with the federal form at Ksvotes.org.

If you know people who would like to help register voters, contact the Voter Registration Project and we'll help them get started. It's easy!
